

VANSHIKA SAXENA

Lucknow, India · vs.vs9411@gmail.com · github.com/vanshikacs · linkedin.com/in/vanshika-saxena-039518329

Computer Science undergraduate focused on full-stack development, AI-integrated applications, and product-oriented problem solving — with hands-on experience in React, FastAPI, MongoDB Atlas, REST APIs, and deployment debugging.

EDUCATION

Shri Ramswaroop Memorial College of Engineering and Management

B.Tech in Computer Science and Engineering — CGPA: 7.5

Expected Graduation: 2028

Lucknow, India

Capital Public School

Class XII — 78%

2023

Lucknow, India

Dewan Public School

Class X — 80%

2021

Meerut, India

TECHNICAL SKILLS

Languages: Python, C, C++, JavaScript, TypeScript basics

Frameworks / Tools: React.js, FastAPI, Tailwind CSS, Vite, Git, GitHub, Postman, MongoDB Atlas, Vercel, Render, Netlify, Docker basics

Concepts: REST APIs, JSON, JWT Authentication, HTTP, CORS Debugging, Recursion, Deployment, Client-Server Architecture

PROJECTS

FittyFit – AI-Powered Health & Diet Web App | React · FastAPI · Python · MongoDB Atlas · OpenAI/LiteLLM

2026

- Architected full-stack healthcare app combining food analysis, wellness tracking, and AI-assisted dietary guidance
- Implemented JWT-secured login/signup flows with FastAPI backend routes for authentication and health analysis endpoints
- Managed MongoDB Atlas cloud database; configured environment variables (DB URL, JWT secret, CORS origins, API keys)
- Debugged production issues: CORS errors, failed API requests, localhost-backend mismatch, and deployment configuration gaps
- Connected OpenAI/LiteLLM API for food intelligence; deployed frontend on Vercel and backend on Render
- Secured 4th position, Pitch Hustle Hackathon, SRMCEM Lucknow, with team TechDivas
GitHub: [https://github.com/vanshikacs/FittyFit] Live: [https://fittyfit.vercel.app/]

AQI Visualizer & Forecasting App | Python · Streamlit · Pandas · Matplotlib · Folium

2025

- Built real-time air quality visualization tool for environmental monitoring and public health recommendations
- Processed historical AQI trends with interactive map-based location insights for underserved regions
- Explored forecasting using weather, pollution, and satellite data signals
GitHub: [https://github.com/vanshikacs/AIR-QUALITY-DSS] Live: [https://airflowdss.streamlit.app/]

Dearly – Privacy-Focused Video Diary & Reflection App | React.js · JavaScript · Browser APIs · UI/UX Design

2025

- Designed privacy-preserving journaling concept with mood summaries, memory insights, and yearly video compilation
- Built aesthetic multi-page frontend emphasising user control and data ownership; explored on-device AI for memory tracking
GitHub: [https://github.com/vanshikacs/Dearly-Video-diary] Live: [https://dearlywithlove-delta.vercel.app/]

ACHIEVEMENTS

- **1st Position – Debate Competition, Lucknow University:** Demonstrated structured argumentation, stage confidence, and analytical public speaking in a competitive academic setting
- **4th Position – Pitch Hustle Hackathon, SRMCEM Lucknow:** Presented FittyFit healthcare-tech solution with team TechDivas; demonstrated product thinking and cross-functional teamwork
- **GirlScript Summer of Code – Contributor / Mentee:** Selected for open-source contribution programme; strengthened collaborative development and community-driven engineering
- **HENNGE Admission Challenge:** Solved Python recursion task under strict constraints (no loops, no comprehensions); implemented HTTP Basic Auth and TOTP-based authentication via GitHub secret Gist and JSON POST request

LEADERSHIP & ACTIVITIES

- **Assistant Coordinator, Literati Cell:** Led event organisation, anchoring, debate, and writing sessions; strengthened college community communication and cross-team coordination
- **Art of Living – Community & Self-Development:** Active participant in personal development programmes and volunteer community engagement initiatives
